Location & surrounding area:

Off site Palmas city, you find the high plateau (138 altitude) of Xorrigo y Son Gual, famous through the rocky gorges and the infrequently plants.

The manor Son Gual dates from the Moorish occupation and is situated in the middle of the golf course, which exists since 2 years. Originally, vines, olive trees, carob beans and cereal were grown on the farm.

The environment is not yet that much developed, but on the new motorway reachable in a few minutes from Palma.
