Details:

An exclusive residential complex is being built in the heart of Capdepera, combining the Mediterranean lifestyle with modern living comfort at the highest level.

The stylish new-build residence with a total of 32 units near the beautiful bay of Cala Agulla comprises 23 stylish apartments and 9 elegant terraced villas, each with 2 bedrooms.

The apartments offer 2 double bedrooms and 2 high quality bathrooms. A few selected units on the 1st and 2nd floors offer impressive sea views. The terraced villas boast well thought-out layouts and spacious terraces on both levels, creating a harmonious interplay between indoor and outdoor areas.

The tastefully designed communal areas with pool and Mediterranean gardens invite you to relax. Elevators within the complex and underground parking spaces provide additional convenience.

The construction project meets the highest quality standards and complies with the latest European requirements. Excellent thermal and acoustic insulation, modern air conditioning systems and energy-efficient heating systems based on aérothermal energy and solar thermal panels ensure a pleasant living environment.

The kitchens will be delivered fully furnished and equipped with high-quality Siemens electrical appliances. Elegant bathrooms with floor-level showers and wall-hung washbasins underline the high standards.

Large-format porcelain tiles, double-glazed windows and discreet LED lighting create a modern ambience. The pre-installation for electric vehicles and sustainable water and energy-saving systems round off the future-oriented concept.

Features: underground parking space, communal pool, elevator, communal gardens, air conditioning, heating, aérothermal system, solar thermal panels, LED spotlights, double-glazed windows, pre-installation for electric vehicles, water and electricity saving in the public areas

Estimated completion date: November 202
