Details:

This townhouse, built in 2025, combines the authenticity of a traditional fishing harbor with the lightness of Mediterranean living. Nestled in the picturesque streets, it offers around 120 m² of warm, character-filled living space spread over three levels – a home for those who value authenticity and style.

On the ground floor, a bright living area welcomes you, seamlessly connected to a tranquil patio. A guest toilet completes this level. One floor above, the private bedroom with en-suite bathroom provides a space of calm and comfort.

The second floor forms the heart of the home: an open-plan kitchen that perfectly complements the overall living concept. From here, a staircase leads to the approximately 30 m² rooftop terrace. Equipped with an outdoor kitchen and barbecue, it invites you to enjoy long evenings while offering panoramic views over the rooftops of the old town all the way to the sea – always accompanied by the changing light of the sun.

Handcrafted tiles, crystals embedded in the flooring, and subtle design details give the house its unmistakable character. Modern technology such as a heat pump and underfloor heating ensures a high level of comfort and makes the property enjoyable all year round.

Located within the charming streets of Porto Colom, everyday life unfolds right outside the door: small shops, cafés, and the nearby harbor shape the surroundings. This house is not a stage, but an authentic home for people who seek something special in simplicity.
