## Details:

This village-house dates from 1850, and was completely restored in 2022, whilst combining modern minimalism with Mediterranean flair. It is situated on the outskirts of the charming village of Sencelles, well-known for its typical Mallorcan architecture and relaxed atmosphere. The house offers ample privacy and tranquillity as it is not located in the very centre of the village, although its location within easy reach of the motorway means that Palma can be reached within a 20 minute drive.

Its bright entrance area is on the ground floor and leads to a beautiful dining room, a spacious living room, a wonderful kitchen, a guest WC and a laundry room. The modern kitchen is fully-equipped with SMEG appliances, leaving no wishes unfulfilled.

The loving restauration of the house was planned and carried out taking the smallest details into consideration, whereby great importance was placed upon the use of natural materials such as wood and natural-stone, creating a real Mediterranean flair. At the same time traditional elements were preserved including, for example, the large arches in the living room. The result is an harmonic combination of old and new which bestows a unique personality upon the property.

On the first floor are 3 comfortable double bedrooms and 2 bathrooms, one of which is en suite. All rooms are fitted with hot/cold integrated air conditioning which can be controlled by means of an app. Fitted wardrobes in the bedrooms provide ample storage space, and double-glazed, wood-frame windows provide optimal insulation with modern lighting rounding off the stylish ambience.

The external area of the house is puristically designed and creates a relaxing atmosphere, with a saltwater pool providing the perfect place to relax and enjoy the Mallorcan sunshine. There is also a garage with space for a compact vehicle.

A viewing of this exceptional village house would certainly be worthwhile!
