Details:

In one of the most sought-after locations in Alaró, right in the town centre, this carefully renovated townhouse is taking shape – a property that blends Mallorcan character with a clean, contemporary aesthetic. The design and execution follow a clear vision: to preserve the authenticity of the original structure while creating a comfortable, modern home using quality materials, generous natural light and a well-thought-out layout.

Spread over approximately 280 sqm and three levels, the house combines traditional features such as stone walls, marés limestone and high ceilings with top-level amenities: underfloor heating, central air conditioning, finely rendered interior walls and solid craftsmanship meet oak and iroko woodwork, natural stone flooring and elegant marble details.

The ground floor welcomes with a spacious entrance hall, a guest WC and direct access to the private garage with integrated electric charging point.

The main living area is designed as a cosy retreat – with exposed stonework, built-in shelves, a fireplace and ambient lighting. The adjacent kitchen and dining space opens via large glass doors to the garden, creating a seamless connection between indoor and outdoor living. The kitchen features a large central island, generous storage and direct access to the terrace, complete with dining area, pool and sun deck – all framed by lush planting that ensures privacy and a Mediterranean atmosphere.

The entire width of the first floor is dedicated to the master suite: a spacious bedroom, dressing room, elegant bathroom, private lounge area and access to a quiet terrace. Three further en-suite bedrooms, a separate office, utility room and additional storage complete the living space.

This home blends Mallorcan charm with modern comfort. Completion is scheduled for September 2025.
