Details:

This exclusive villa on the seafront combines modern design and an incomparable location on a Mediterranean plot of approx. 1,228 m². With a construction area of approx. 455 m², it offers a living concept that meets the highest standards. Generous panoramic windows make the Mediterranean Sea the central design element from almost every room and create a unique connection between the interior and exterior. The villa impresses with its light-flooded designer furnishings, clear room structure and high-quality materials. The open-plan living and dining area with integrated kitchen, wine fridge and fireplace forms the heart of the house. A stylish lighting concept and WiFi-controlled underfloor heating ensure maximum living comfort all year round.

A living area of approx. 281 m² with a total of six bedrooms and four bathrooms extends over two levels.

The upper living level accommodates three bedrooms and two elegantly designed bathrooms, one of which is en suite. From here, you have direct access to the 95 m² sun terrace, which invites you to relax and enjoy the fantastic sea views.

The lower level offers three further bedrooms and two bathrooms - ideal for family and guests. Several bedrooms have sea views and direct access to the terraces, so that every morning begins with a view of the Mediterranean.

The outdoor area presents itself as a private oasis of well-being with a 15-metre heated pool, several sun terraces and a fitness room. Up to four parking spaces are available. The villa is fully air-conditioned, energy-efficiently equipped (heat pump, solar system, exterior insulation) and is offered fully furnished.
