Details:

Built in 1971, the chalet is situated on a plot of approx. 520 sqm in a sought-after location in Puerto de Alcudia and was extensively renovated in 2023. Today, the property presents itself in a modern, well-kept condition and skillfully combines Mediterranean charm with contemporary living comfort.

The house offers a living space of approx. 100 sqm on one level. This is distributed over 3 spacious double bedrooms and 2 stylishly appointed bathrooms, one of which is en suite. The heart of the property is the open-plan living area with high ceilings and characteristic transverse wooden beams, which creates a pleasant feeling of space. This area is complemented by a modern, fully equipped kitchen with integrated dining area and a practical utility room.

Features include double glazing, air conditioning (split units) and electric underfloor heating in the bathrooms, which provides additional comfort even in the cooler months.

The outdoor area impresses with its well thought-out layout: at the front of the house, facing west, there are parking spaces and a covered, stone-clad terrace - ideal for relaxing in the evenings. The rear garden area offers a high degree of privacy and features a pool with outdoor shower, well-tended green areas, a BBQ area, a tool shed and another covered terrace with direct access to the kitchen.

Particularly noteworthy is the existing, older vacation rental license for up to 6 people, which opens up additional usage potential.

The location of the property impresses with its immediate proximity to all amenities: Shopping facilities, restaurants, bars and a wide range of leisure activities such as water sports are all within easy reach. The beach of Puerto de Alcudia is just a 10-minute walk away.
