Details:

Completed in 2025, this property combines contemporary architecture with fine natural materials to create an overall look that immediately conveys a sense of tranquility and style.

Set on a lot of approximately 452 sqm, the home features a living area of about 205 sqm, intelligently distributed across 3 light-filled levels and guaranteeing the highest level of living comfort.

The entrance hall alone welcomes you with a distinct artisanal character: Fine natural stone, warm wood elements, and a clean, geometric design language create an elegant, Mediterranean-inspired ambiance. Floor-to-ceiling windows flood the rooms with natural light and elegantly blur the boundaries between the stylish interior and the inviting outdoor spaces.

The heart of the home is the spacious, open-concept living and dining area. Here, the living space flows seamlessly into a high-end kitchen that combines aesthetic design with state-of-the-art functionality, the perfect setting for culinary evenings.

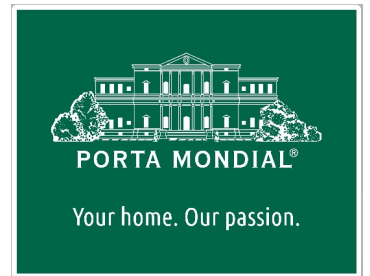

Privacy and relaxation await you in the 4 bedrooms and 3 exclusive bathrooms, 2 of which are designed as en-suite bathrooms. The luxurious master suite impresses not only with its adjacent bathroom and separate walk-in closet but also with a private highlight: a large terrace offering an unobstructed, sweeping view over the rooftops of Santanyi.

The outdoor area has been designed as a private oasis of tranquility. A beautifully designed patio with its own pool, framed by Mediterranean vegetation and offering a variety of sunny and shaded spots, invites you to enjoy relaxing moments. The large covered terrace is already equipped with all the necessary connections for an outdoor kitchen, the perfect place for gatherings with family and friends.

This townhouse also leaves nothing to be desired in terms of technology: underfloor heating, central air conditioning, and a sustainable solar system guarantee an optimal indoor climate year-round. A private garage rounds out the features.
