Details:

This easily-accessible building plot of almost 14.000 sqm is situated between Inca and Sencelles and has lovely views of the Tramuntana mountains.

It can be constructed with a 2-storey detached house with a cellar, terraces and a pool. The building project has been approved and the plot has been prepared for fencing. There is already a water meter, and a mains-electricity connection is possible.

An excellent plot of land with south-west orientation for the construction of your home, with good traffic connections and views over the plain as far as the hilly countryside in the west.

Location & surrounding area:

Sencelles is a large community in the wine-growing area of Majorca. The village offers wonderful views to the Tramuntana mountains. Inca, the third largest town in Majorca, is 8 minutes drive away and Palma centre is 20 minutes.
